

Top Award!

Kerikeri company Peaches Skin & Body Clinic on Kapiro Road was too smooth for the competition - taking out the prestigious Ultraceuticals Salon of the Year Award.

Up against 120 clinics throughout New Zealand, judges say the award-winning clinic excelled with an unequalled level of professionalism, meticulous product knowledge, sound industry experience and feedback from a loyal customer base.

"Thank you to my clients for their support. Without them this award would not have come to fruition," says Tracey Spruit, Peaches owner.

Tracey has been a beauty therapist for the past 29 years and started Peaches in Kerikeri 11 years ago to offer an exclusive clinic with confidential and personal service.

Ultraceuticals is made in Australia for the Australasian market - specifically designed for the extreme UVA & UVB conditions both countries experience.

It is the leading cosmeceutical brand in Australia, providing professional grade corrective skincare products and treatments for people who are seeking Real Visible Results.
